Building a world where everyone can move around without fear, specially women

New @ Safetipin

Safetipin Contributor of the Month!
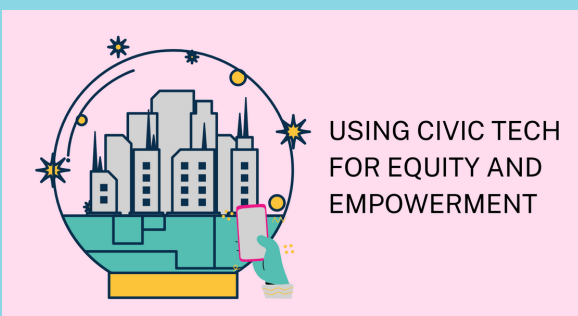

Contributor of the month!

Nadine Schröder

In January, 2021, **Nadine Schoder**, used and presented the My Safetipin app as a part of her Sustainable Urban Development class. She conducted safety audits in Germany and we're so happy to see the safeti-community growing! **YOU** could be the next 'Contributor of the Month'. Download the My Safetipin app (by clicking below) and doing safety audits wherever you are. The person who does the most audits, gets featured on our social media platforms as well as in our newsletter.

NEW BLOG: Using Civic Tech for Equity and Empowerment

"Technologies that empower citizens to engage and participate in governance and better access government services as well as those that enable governments to become more accessible, efficient and effective in delivering services to citizens."

Learn more about civic tech and how Safetipin fits into this field in our latest blog by **Kalpana Viswanath.** Click on image to read.

USING CIVIC TECH FOR EQUITY AND EMPOWERMENT

Online Survey to Understand Impact of Covid-19 on Citizens of Sri Lanka

**Click here to fill the form if you live in Sri Lanka**

In partnership with **The World Bank**, Safetipin is conducting an online assessment to understand the impact of Covid-19 on the life of citizens of Sri Lanka. The survey aims to capture differences in travel patterns, mobility choices and overall well-being of the citizens due to Covid-19. The responses will be analysed to suggest recommendations for making public spaces and transport in Sri Lanka both Covid and gender responsive.

Safety Mapping in Panaji, Goa

Safetipin in partnership with Tandem research, Goa has started collecting data in Panaji, Goa using Safetipin Nite application in the month of January 2021 . On 20th of January, 2021, the team from Safetipin conducted a training for the functioning of Safetipin Nite application to the team of Tandem Research, volunteers and drivers. The data collection will continue till the last week of February.

Raahgiri Day on Anath Road

On 30th January, 2021, there was a Raahgiri day on Anath Road in Sector 18, Gurugram organised by Raahgiri Foundation. This 2.5km stretch of road is going to be converted into a green belt by the GMDA in the coming months. Safetipin conducted an activity at the event where people were asked to share their views about the street and mention the changes they would like to see. It was an interactive event with people of all ages participating. We got inputs on the lighting in the area, the security as well as the waste management and drainage systems in place. We also conducted another activity in which the participants had to guess the safety score of the road and the people who got the closest values, won Safetipin prizes.
